

1.Design a website for the Tourism Sites of any states. There should be at least 6-7 web-pages present in the web-site. There should be:

- One Home page that leads to other pages. The Home page should contain the name of the state as heading along with a logo. There should be a tab with the following links:

- Home;
- Heritage;
- Hotel Booking;
- Gallery.

There should be an appropriate description of the state on the home page.

- One Heritage page which contains a list of all the Heritage Sites present in that state. The list should be a list of Pictures. There should be a minimum of 4-5 heritage sites. Each Image entry in the list should be a HTML link/button that leads to a web-page totally dedicated to the Heritage Site itself.
- Each Heritage Site should have its own dedicated web-page. This page should contain a description about the site along with its history.
- The Hotel booking page basically contains a form that a person needs to fill up in order to stay in a hotel. The form should ask all the necessary questions using appropriate form elements.
- One gallery page that contains set of photos taken of the Heritage Sites throughout the city. Please note that each web-page in this website should have the same background Image/color. The looks of each page should be similar.
